Week of February 27, 2023 Michigan Interchange I-75 Closures

I-75 Service Drive - **NEW**

- Existing mobile closures on the northbound and southbound I-75 Service Drives between Clark Street and Scotten Streets, and Springwells and Central Streets will remain in place until March 31, 2023, between 6 a.m. - 6 p.m. as needed. Only one lane will close. Closures will be less than 30 minutes in duration during these time frames for mobilization and demobilization of equipment activities.
- The existing mobile closures along northbound and southbound I-75 between Schaefer Avenue and Michigan Avenue will remain in place until April 28, 2023, from 7 a.m. – 6 p.m. daily as needed.
- Northbound and southbound I-75 Service Drive will close over a long-term period between Green Street and Waterman Street. Combined with pre-existing Service Drive closures in the area will make the entire northbound and southbound Service Drive closed from Springwells Street to Clark Street.
- The left lane on southbound I-75 Service Drive will close between southbound I-75 and the Clark Street off-ramp to Hubbard Street from January 23 - June 30, 2023.
- The left lane on southbound I-75 Service Drive will close between Clark Street and the southbound I-75 off-ramp from January 23 - June 30, 2023.
- The left lane of southbound I-75 Service Drive will close between Witt Street and Govin Street from February 24 – March 13, 2023.

The following road closures are in place:

- Waterman Street between northbound and southbound I-75 Service Drive
- Dragoon Street between Fort Street and the southbound I-75 Service Drive
- Green Street between Fort Street and the southbound I-75 Service Drive
- The existing closures on northbound and southbound I-75 Service Drives between Dragoon Street and Clark Street will remain in place until June 30, 2023, to support ongoing siphon construction.
- The existing closure on northbound I-75 Service Drive between Rademacher Street and Dragoon Street will remain in place until June 30, 2023, to complete the realignment and reconstruction of the northbound I-75 Service Drive.
- The existing southbound I-75 Service Drive closure between Waterman Street and Dragoon Street will remain in place until June 30, 2023, to complete the realignment and reconstruction of the northbound and southbound I-75 Service Drives.

Construction Activities - United States

Week of February 27, 2023

Long Term I-75 Closures

As construction of the Michigan Interchange and the US Port of Entry (POE) continues, Bridging North America will extend the temporary closures along Livernois Avenue. Additionally, Cavalry Street and Military Street will remain closed over a long-term period. As a reminder, in July 2020, several streets closed over a long-term period including sections of Dragoon Street, Driggs Street, Harvey Street, Reeder Street and Hussar Street.

Junction Street

- Junction Street bridge between the northbound and southbound I-75 Service Drives will close over a long-term period.

Springwells Court

- Springwells Court northbound and southbound is closed west of the Lafarge entrance to east of the Springwells Court detour from May 15, 2021 until November 23, 2024.

Cavalry Street

- Cavalry Street will remain closed between the northbound I-75 Service Drive and Fort Street.

Military Street

- Military Street will remain closed between the northbound I-75 Service Drive and Fort Street.

Post Street

- Post Street remains closed over a long-term period between CSX Railroad and the Delray Mechanical entrance.

Campbell Street

- The existing long-term closure on Campbell Street between West Jefferson Avenue and Fort Street will remain in place until May 31, 2023.

Construction Activities - United States

Week of February 27, 2023 Construction Activities

US Port of Entry (POE)

- Installation of underground wet and dry utilities continues.
- The team placed Expanded Polystyrene (EPS) blocks at Schroeder Street and installed the perimeter drain on the USDA building.
- Installation of the earth retention system for the jacking pit.
- Work activities on the Commercial building included the installation of the following: masonry unit (CMU) blocks, in-wall piping, insulation and fire suppression, setting steel for the cooling tower, and overhead hangers, duct work, radiant heaters, hollow metal door frames and framing.
- The team pulled branch wire, conduit and fire caulking, and installed air piping, sump pumps, and piping at the truck dock.
- Work on the Main building work continued with glazing and caulking the curtain wall, in-wall rough ins, fire suppression rough ins, hangers and pipe installation, and masonry unit (CMU) block installation in the dog kennel area. As well, the team applied the air vapour barrier and framed and installed metal door frames and installed girts and insulation on the west elevation.
- The team installed girts and insulation on the east elevation, worked on the elevator shaft, and installed overhead hangers, piles and conduits, and pipe insulation on the Outbound building.
- The POE team formed the foundation footing on the USDA building and staged geopolymer for the Waterman sewer.

US Bridge

- Rebar installation continues.
- Stay cable installation work continues.
- The team continues to work on pier footing formwork and cap formwork.
- Approach and back span activities are ongoing.
